APPROVAL OF STATE ENGINEER This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the manner and place of use of a portion of waters of Indian Ranch Spring as heretofore granted under Permit 22369, Certificate 7267, is issued subject to the terms and conditions imposed in said Permit 22369, Certificate 7267, and with the understanding that no other rights on the source will be affected by the change proposed herein. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The state retains the right of responsibility for the use of the Federal range. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued with the express understanding and on the condition that existing grazing use of the public range by authorized users or permittees will not be impaired or adversely affected by approval and issuance of this permit. The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed. 0.02	14.
